

## Old-Time Resident Called By Death

Mrs. Margaret Angeline Flewelling peacefully passed away in Irma on Tuesday, October 22, 1946, at the age of 91 years.

Margaret Angeline Snow was born on August 8, 1855, at Belwood, Ont. On March 14, 1877, she married Abraham Flewelling who predeceased her many years ago. The deceased is survived by three daughters, Mrs. Charles McKilligan, Smiley, Sask., Mrs. Tate, and Alice, both of Irma, and one son, John, Consort, Alta.; also 16 grandchildren and 19 great-grandchildren.

The honor and esteem in which Mrs. Flewelling was held by the residents of the community were faithfully shown by their kindness and thoughtfulness all through her falling years. Although confined to the house for nearly six years she was always bright and cheerful.

The funeral services were held Thursday, October 24, from the United church. Rev. Ingalls officiated, and interment took place in the local cemetery.

Palbearers were Messrs. Ross McFarland, Ross Eaton, Wm. Prior, Fred Hill, Eldon Fenton and Martin Knudson.

Floral and other tributes were received from: The Family, Mary and Charlie; Ethel, George and Georgia Lee; Margaret and Jacqueline; Dorena and Hazel; Winnie and Gordon; June and Roy; Mr. and Mrs. R. McFarland and family; Mr. and Mrs. P. E. Jones and family; Martin and George Enger; Mrs. C. McLeod, Hazel and Walter; Stan, Ellen and Shirley Mae; Isabel and Victor Hutchinson; Hill family; Mr. R. Hanson; Irma Ladies' Aid.

The following gave contributions for the support of the Alberta Protestant Home for Children: Mr. and Mrs. Masson and family; Mr. and Mrs. A. C. Knudson; Mrs. I. C. Knudson; Mr. J. A. Hedley. Tributes to the Memorial Fund of the Irma United church were from: Mr. and Mrs. Charter; Mrs. Holt and Charlie; Miss Winnie Reeves; Mrs. Arnold; Mr. and Mrs.

W. Barber and boys; Erwin and Louisa Prosser; Mr. and Mrs. R. L. Eaton; Mr. and Mrs. E. L. Elford; Mrs. C. V. Larson; Neil, Gerald and Pat Scott; Mac, Margaret, Neil and Ruby; Annetta and Bob Maguire; Mr. and Mrs. Hager and Bill; Edith Elliott and Arthur; Mr. and Mrs. M. D. Askin; Mrs. M. M. Tripp; Mrs. Helena McKay; Mrs. Arthur Peterson; Mr. and Mrs. J. Fenton; Women's Institute; Mr. and Mrs. J. C. McLean; Mrs. C. R. Locke; Mr. and Mrs. W. H. Prior; Mr. and Mrs. Martin Knudson; Mr. and Mrs. D. Gunn; Mr. and Mrs. C. Milne; Mr. and Mrs. J. Fletcher; Mr. and Mrs. H. Black; Mr. and Mrs. Lee Currie; Mr. A. Locke; Mr. and Mrs. I. S. Reeds; Mr. and Mrs. A. A. Fisher; Mr. and Mrs. R. D. Smallwood and Alex; McRoberts family; Mr. and Mrs. R. L. Slimmerman; Mr. and Mrs. H. Knudson; Mr. and Mrs. M. Reitan.

## Easterly Echoes

Mr. J. W. Bell was pleased to have a visit from his two sisters, Mrs. F. Appelin and Mrs. E. Fairman, of Edmonton, over the weekend. They were accompanied by Mr. Ford Appelin and little Miss Rosalene Fairman.

Miss Avelida Fitzpatrick has accepted a position in the Wainwright hospital. At present she is visiting her sister, Mrs. T. Bacon.

Mr. and Mrs. William Bacon entertained their cousins, Mr. and Mrs. Alf Bacon, Miss Ethel Bacon and Messrs. W. and F. Bacon on Sunday.

Threshing was given the full speed ahead signal last week with the result that by the time this is published most of it will be finished in this district. We were indeed fortunate to miss the snow.

The Roseberry Christmas Tree Fund is expecting an increase at the box social and dance to be held in their school on November 8. This is always a big event at Roseberry so we want you to know you are welcome.

## Agricultural Service Board Meeting

The Wainwright Agricultural Service Board met at the office of the municipal district of Wainwright No. 61 on Tuesday afternoon, October 8, 1946, at 2:00 p.m. All board members were present, being Messrs. Smale, Golding, Sanders and Nysetvold; also Mr. S. Roblee, district agriculturist, and Mr. F. W. Maddex, field supervisor.

Golding—That the minutes of the meeting of August 1, 1946, be accepted as read. Cd.

Mr. Roblee advised that the printing of survey sheets should be withheld for the time being as suggested at the conference of field supervisors and district agriculturists held in Edmonton recently.

Mr. F. W. Maddex gave a report of his work during the months of August and September which included the inspection of hail damage in the Gilt Edge district; visiting different weed inspectors while they were on duty; cutting several patches of weeds on sides of roads, chemicaling bad patch of toad flax near Chauvin and bad patch of sow thistles near McCafferty hall. He also reported on the trip to Edmonton for the conference.

Sanders—That the report of the field supervisor be accepted. Cd.

Roblee—That the expense account of F. W. Maddex re trip to Edmonton to the conference be accepted, and submitted to the municipal council for payment. Cd.

Mr. Roblee reported on the conference held at Edmonton for Tofield supervisors. He stated that from reports submitted the Wainwright agricultural service board had as much to show for

the money as other districts which had been organized this spring. He outlined a winter program which would include a seed cleaning campaign after gettings samples from threshing machines, getting material for demonstration plots, etc. At the conference was recommended the idea of 8-year rotations; backlogging of roads for weed control (one mile might be put in this year for demonstration); tours of the service board and council to see weed weather use in this municipal district; use of the press and circular letters for weed control.

Nysetvold—That this service board recommend to the council that they do more backlogging of elevated roads for weed control. Cd.

Nysetvold—That this service board recommend to the council that the Blackfoot Oil property be seeded down to crested wheat seed this fall. Cd.

Sanders—That Mr. Hissett be paid \$40.00 for his work done after account had been approved by council. Cd.

Smale—That Mr. Mansfield's account up to September 30 be approved. Cd.

Golding—That the account of Thomas Rattray \$5.00 for hauling rye be approved. Cd.

Mr. Maddex advised that the NW 20-46-8-4 should be investigated as it is badly infested with weeds. Mr. Sanders and Mr. Maddex were appointed a committee to look into this matter.

Golding—That a condemnation notice be placed against the SE 1-45-7-4 which is badly infested with Canada thistle. Cd.

Nysetvold—That the agricultural service board request the council to get enough crested wheat grass for 20 miles of road. Cd.

Smale—That the meeting adjourn, next meeting to be held November 7, at 2:00 p.m. Cd.

"It's all right for them to sit back and pass down fool resolutions but none of them dare come before the public for election."—Senator Wm. Duff.

## Glen-Coa Gleanings

Mr. and Mrs. Irving Mae (Nee Phyllis Erickson, of Irma) of Mount Vernon, are the proud parents of a baby boy, Gerald Norman, born on October 16.

We are glad to report that Miss Genon Theroux, teacher of Coal Springs school, is progressing nicely. She is home from the Viking hospital.

The farmers have been justified in their optimism. The majority are threshed now and the outlook is hopeful for all to be threshed before winter sets in in earnest.

Mr. Harold Johnson of Kyle, Sask., has been a recent visitor to the Erickson home. He has gamely been giving a hand at threshing.

Remember the Luther League picnic social to be held at Glenholm school on November 8.

A Luther League pocket Testament Program under the leadership of Mrs. P. Nilson, will be held on Sunday evening, November 10. All Leagues are requested to be there.

Sharon congregation is joining with two other congregations in a memorial service to be held at Trinity Lutheran church near Loughheed. This service will be on November 10, at 11 a.m.

It is reported that the Glenholm pupils have been holidaying, due to the illness of their teacher, Mrs. Armstrong. It is hoped that she is better now and able to be back on the job.

Miss Betty McKay, Curtis Satre and Carl Gulbraa attended the Luther League Workers' conference in Edmonton on October 26.

## Items From Kinsella District

Mr. D. C. Carpenter attended the stock show held at Calgary last week.

Mrs. C. Smogard was a recent visitor to Edmonton. The guest of her sister Mrs. P. J. Wangness.

Mrs. P. Scia, Miss Hoskins, Miss Rude and Mr. H. Ross attended the Teachers Convention in Edmonton.

The pupils of the intermediate rooms are holding a concert in the school garage on Friday Nov. 1st.

Thanks to the lovely weather we have had lately the threshing is almost finished in this district.

Barker and Brown are busy putting up electric light poles and will supply the village with electric power.

## WEDDING DANCE

Announcing the wedding dance of Mr. and Mrs. Albert Glasgow, to be held in Kiefer's hall after the show on the evening of Nov. 8. Everybody welcome.

## SUNSHINE OILS

Parents are reminded by the Dept. of National Health and Welfare, Ottawa, that this is a period of the year for starting children on Cod Liver Oil again. Without sunshine or fish oil, healthy bone and tooth development is not possible, say the health authorities. The use of fish liver oils for children, particularly in winter, is recommended in the booklet "Canada's Food Rules," available through official channels.

## Northern Nuggets

Mrs. W. D. Ramsay spent a few days last week with her daughter, Mrs. Robt. Lukens, while the latter entertained the threshers.

Mrs. J. Allen was also assisted in entertaining threshers for Mr. R. C. Johnson. Her helpers were Mr. and Mrs. Archie Fleming.

Mr. Jack Buie, of Collinwood, Ont., employee of Mr. E. B. Allen, spent the week-end sight-seeing around Mannville district. One feature of his interest was Ambler Bros. ranch, comparable only, says Mr. Buie, to Toronto stock yards.

Mrs. E. B. Allen and son, Bob, were Sunday supper guests at the home of Mr. and Mrs. J. Allen.

We understand Mr. Jack Peterson has still not given up the search for his dog which has been missing for over six weeks. His search Sunday was again fruitless.

Mrs. Peterson Sr. is visiting with her daughter, Mrs. W. E. Ramsay.

Mr. and Mrs. H. Johnston, Misses Jean and Sarah Sherry were seen shopping in Mannville last week.

People have been overcome with heat, gas and numerous other causes. Master Eddie Allen has been overcome in a new way. When the blower of the machine threshing his father's crop became plugged, the youngster stepped to where the straw pile would be and gazed up into the empty mouth of the blower. But not for long. A blast of straw struck him as the machine cleared, and young Eddie will likely leave such matters of attending that end to the men.

A road gang from Mannville is working to improve our road to Irma. Operations are hoped to be completed before winter sets in.

## COMMUNITY COOK BOOK

¾ cup brown sugar.  
½ cup shortening.  
½ cup mixed marmalade.  
2 tablespoon peanut butter.  
2 eggs.  
½ teasp. soda dissolved in 1 tablespoon cold water.  
tsp. Vanilla.  
1½ cups flour.

Method: Cream shortening sugar and peanut butter. Add eggs and marmalade and dissolved soda. Add flour and ½ tsp. salt. Bake 15 minutes to 20 minutes in a moderate oven.—Mrs. J. Fletcher.

## A FAIR RETURN

It is evident from early reports that the sale of the Canada Savings Bond is meeting steady response. It bears out conviction that thrift is one of the sturdiest fibres in Canadian character. As was to be expected, however, sales agencies report widely differing experiences in talking to potential customers. One question that seems to come up relates to the interest paid by the new security. "Why 2½%?, people ask. "Why not 3%?"

It may be that these questions are prompted by some misunderstanding of the purpose of the Canada Savings Bond. The name itself provides a simple clue to this purpose. The new security is intended solely as a convenient form of personal savings, and in comparison to other forms of saving, has much to recommend it. The safety provided by the backing of the nation's resources, plus the feature of immediate redemption at 100 cents on the dollar is an attractive combination in any security. Coupled with these features, the rate of 2½% is a fair return, and is not approached by other comparable forms of saving or investment available today.

## WHITEWASH IS SANITARY

Soon the farm animals and the poultry will have to go into winter quarters. If the buildings are clean and sanitary the livestock can be more easily kept in good health and with good health they will work better or produce more.

It is not a big job to put the buildings in a sanitary condition; whitewashing will do. The surface to be whitewashed should be free from dirt or grease. Just before applying the whitewash, dampen the surface so that the wash will not set too quickly. If a sprayer is used, in preference to a brush, be sure to strain the whitewash through two or three layers of cheesecloth. A good disinfectant whitewash can be made by adding one or two ounces of carbolic acid to each gallon of whitewash.

Good recipes on how to mix whitewash of different kinds may be obtained by writing to Dominion Dept. of Agriculture, Ottawa. These recipes include ordinary whitewash, interior whitewash, exterior weatherproof whitewash, simple cold water paint, weatherproof cold water paint, and washable cold water paint.

## A Tribute To Canada

THE MANNER IN WHICH PEOPLE of many races have come to this country and lived together in peace and harmony as Canadian citizens, stands as an example of what could be accomplished on a much larger scale among the nations of the world. Canadian culture has been large to be an amalgamation of all the best which has been brought here by people from other lands. In Canada, racial prejudices and language and class barriers have been submerged, while much of the finest in music, art and other forms of expression in many divergent races, has combined to benefit the cultural life of this country. Among all ranks of Canadians, statesmen, professional men, educators and those engaged in various forms of the arts, are outstanding citizens whose racial origins go back to all parts of the Old World. Regardless of this, they work together, as citizens of Canada, for the welfare and advancement of the nation.

### Is An Example To The World

For many years Canada has been cited as an example of what could be achieved in building permanent peace among the people of the world. The latest tribute of this kind came from the Right Honorable Viscount Addison, British Secretary of State for the Dominions who recently made an extensive tour of Canada. During this tour, Lord Addison addressed audiences in a number of centres and on each of these occasions he advocated what leading statesmen of all nations are now urging, namely that the interests of the United Nations be held above those of individual states and groups of people, in the cause of an enduring world peace.

### The War Taught Need For Unity

Lord Addison emphasized the fact that the war has taught the people of the world the value of unity as a basis for lasting peace. In this connection he said: "All the great projects on which we could make progress, and are doing so as far as opportunity allows, are only possible on one condition, and that is that we have for a basis of every scheme security for the people. I believe every man in every country wants to be able to pursue his life free from the dread of war, and I would like to say that I think the lesson of Canada—in which large numbers of different races, preserving their own ideals and their own teachings and their own languages are living together in a great unity—is a lesson the world should learn." Canadians should be proud, indeed to stand as such an example for peaceful co-operation among people at this crucial period in world affairs.

### IT COULD BE DONE

#### Not Too Much To Hope United Nations May Yet Outlaw War

Gen. Eisenhower says he thinks the time has come when humanity is intelligent enough to do away with war. He says both the atom bomb and war itself should be outlawed.

Gen. Eisenhower's sincerity is not open to doubt, comments the Buffalo Courier-Express. If his sincerity and faith in the intelligence of humanity could be infused into all United Nations delegates, something constructive would result.

Inasmuch as the people of no nation want war, it shouldn't be beyond the realm of possibility for the United Nations to take action designed to outlaw war effectively—and this time for keeps.

It may be too much to hope, but we are not yet ready to concede that.

### For Stamp Collectors

Australia Has Special Service Which Would Be Appreciated Anywhere

For the first time in Australian post office history, the eager and fastidious stamp collector can post his letters, secure in the knowledge that the stamps will not be defaced in the post-marking. In Sydney, a new mail-box has been added with the classification—"Philatelic Mail Only."

Post office authorities explained that the ordinary machine post-marking was sometimes too heavy for the requirements of philatelists. Letters placed in the special box will be carefully stamped by hand. Since the box was installed, an average of 11 letters a day have been posted.

### BUGS BEST FLIERS SAYS DETROIT ENGINEER

LOS ANGELES—William B. Stout, an engineer, debunked the notion that birds were nature's best fliers. He said bugs could fly circles around them.

Even the common house fly can fly better than a bird, Stout said. "Did you ever see a bird that could land upside down on the ceiling?" he asked.

Stout, a Detroit consulting engineer, showed the Society of Automotive Engineers' national meeting his version of the ornicopter, a flapping-winged airplane built to fly like a bug.

### GEMS OF THOUGHT

#### METHOD

The first idea of method is a progressive translation from one step to another in any course. Coleridge.

Method is not less requisite in ordinary conversation than in writing, provided a man would talk to make himself understood.—Addison.

Be methodical if you would succeed in business, or in anything. Have a work for every moment, and mind the moment's work.—W. Mathews.

Method facilitates every kind of business, and by making it easy makes it agreeable, and also successful.—C. Simmons.

The shortest way to do many things is to do only one thing at a time.—Cecil.

The poet's line, "Order is heaven's first law," is so eternally true, so axiomatic, that it has become a truism; and its wisdom is as obvious in religion and scholarship as in astronomy or mathematics. — Mary Baker Eddy. 2095

### Potatoes Increse

Yields Of Sugar Beets, Dried Peas And Corn Also Higher

OTTAWA.—Substantially increased yields of potatoes, sugar beets, dried peas, and corn, but a reduction in the output of alfalfa for the 1946 crop season was reported by the Dominion bureau of statistics in its first estimate of root and late crop production for the year.

The 1946 potato crop, the bureau said, was estimated at 47,000,000 hundredweight, and was substantially above the 36,000,000 hundredweight crop of a year ago. Average yield was 50 hundredweight per acre, with New Brunswick having a top yield of 150 hundredweight per acre.

Quebec and Manitoba potato crops were lower this year than last, but the total 1946 Canadian crop is the largest since 1934, with the exception of 1944, the bureau said.

The commercial sugar beet crop for 1946 was 83,000 tons above the 1945 output, the bureau said. The increase was due only to increased acreages, but above average yields.

Production of dry peas in Canada this year amounted to 2,322,000 bushels, compared with 1,863,000 bushels a year ago. The alfalfa crop was reduced to 3,263,000 tons—617,000 tons less than a year ago.

UNCLE JOE has more complaints than half a dozen ordinary men. There's not an ache or pain that man's burdened with but he's sure to catch it or be sure he's going to catch it; Rheumatism and his heart are his favorite ailments. Then he has his seasonal maladies, such as hay fever in summer and for the least thing during the winter, he's sure to catch a 'dust of a cold'.

In the kitchen the eight-day clock is almost crowded off of the large shelf with his medicine bottles, pills and ointments, but going to a doctor was something he wouldn't even consider.

"Don't you dare fall off that roof, Joe Quinn!" She gasped shrilly. "Don't you dare!" But over the eave-trough he went.

The first thing I knew about it was when Aunt Martha phoned.

"Your Uncle Joe just fell off the barn roof!" Her voice crackled with excitement.

"Is he hurt very badly?" "He says he's dyin', but you know him he's been dyin' for over thirty years."

"Don't move him!" I warned. "I'll be right over. Phone the doctor."

"I have, he's on the way out." Jumping into the car I was over to their place in less than five minutes. As I was backing the car out of the garage my wife Jenny got in beside me.

Aunt Martha was down in the barn yard fussing over her husband. Uncle Joe lay on a pile of straw covered with a blanket. When he saw me, he groaned hoarsely.

"I'm a goner this time, Ralph, I'll never get over this."

Before I could answer, Doctor Fallon's car turned in at the gate. "Don't exert yourself, Uncle Joe, here's the Doc."

The doctor greeted us briefly and quickly made a cursory examination, while Jenny and I stood at the corner of the barn waiting anxiously. Then he drew Martha aside and they held a whispered consultation. As far as I could see they looked serious. Uncle Joe kept watching them out of the corner of his eye.

"Help me get him into the house," the doctor said to me as they returned. "Pick him up very carefully."

We soon had him deposited in the guest bedroom and the doctor made a thorough examination.

By this time Uncle Joe was really looking sick. The doctor mixed up a foul-looking drink and made him down it.

"Migosh! What's that?" Uncle Joe choked.

"Never mind! You'll take a tablespoonful of it in a glass of water every two hours."

The doctor ignored him. "You'll have to go on a strict diet. No meat, potatoes or any starchy foods. Salads, plenty of milk, brown bread and no smoking."

Uncle Joe sat up in bed. "What are you tryin' to do?" He roared. "Git rid of me? I only fell off the roof. I'm as healthy as anyone."

"Yes, you must certainly are! And you fell on the strawstack," Aunt Martha spoke. "You're not even hurt. The doctor says you're the healthiest specimen he's ever examined. You, you," she was really mad, "old faker!"

Uncle Joe looked fabergasted, all his little subterfuges were being torn down.

"I'm through mollycoddling you!" Aunt Martha stormed. Then she suddenly laughed and stooping, kissed his bald spot. Whatever she said made Uncle Joe chuckle, but we didn't hear, because we were going out the door.

## SMILE AWHILE

Mr. June Wed.—"What's wrong with this pie crust, darling? It doesn't half cover the pie."

Mrs. June Wed.—"I asked your mother how to make pies to suit you and she said to make the crust very short."

Chaplain—How could you have the heart to swindle people who trusted you?

Prisoner.—But, Parson, people who don't trust you can't be swindled.

"Now, then, young man," demanded her father irritably, when he called for the tenth time, "what do you want with my daughter?"

"Wi-with her, sir? Well you know best what you can afford."

"Do you smile at your troubles as I advised you?"

"Fesh," said the boss warned me three times to wipe that silly grin off my face and get to work."

Kentucky paper: "Anybody around my chicken house in the night will be found there in the morning."

Friend—But isn't your son sort of listless, Mr. Moneybags?

Mr. Moneybags—Heavens, no; he has a list of blondes, a list of brunettes, and a list of red heads.

"The maid is reading our mail, dear," said the wife.

"How do you know honey?" asked the husband.

"Because," replied the woman of the house, "she went and baked a birthday cake right after the maidman brought up a greeting card from Aunt Alice."

Magistrate: "You are sentenced to pay a fine of ten guineas, plus five guineas cost. Have you anything to say?"

Offender: "Rather. And if you promise not to increase the fine, I'll say it."

## PROPERTY DAMAGE

Canada Experienced 52,175 Fires During 1945

In the year 1945 there were 52,175 fires in Canada causing a property loss of \$41,905,020, according to figures released by Dominion Fire Commissioner W. L. Clairmont, Ottawa.

Across the country the greatest cause of fires was carelessness of smokers. This fault caused 17,582 fires with a loss of \$2,286,430.

An even greater property loss was caused by defective electrical wiring and appliances. These accounted for a loss of \$3,813,103.

Close behind in the list came fires caused by stoves, furnaces, boilers and smoke pipes. These caused 5,464 fires and a loss of \$3,097,785.

Overheated chimneys and flues were responsible for 3,708 blazes, hot ashes, coals and open fires produced 2,558 and sparks on roofs meant 1,262 calls for Canadian firefighters.

Other causes of fire were gasoline explosions, lights other than electric, spontaneous ignition, matches, fireworks, friction and incendiaries.

## Robbed of Sleep by Rheumatic Pain

But No Pain Now—After a Few Weeks of Kruschen

A woman's gratitude at being rid of "such dreadful pain" caused her to write this letter:

"I used to have such dreadful pains in my knees, ankles and shoulders, to say nothing of my back, which used to feel as though it would break. I had no ease, especially at night. . . . But taking Kruschen Salts for a few weeks only, I feel a different woman, thank goodness. I have no pains now. I feel much brighter and better in every way, and shall certainly continue with Kruschen."—(Mrs. M.H.)

Most rheumatic pain and swelling is caused by too much uric acid in the body. These painful deposits settle in the muscles, joints and tendons, irritate the nerves, and inflame the tissues. Kruschen Salts acts on these pain-making deposits by helping your system to disperse them and to pass them out of your body.

It relieves the pain and if you are wise, you will continue with the little morning dose of Kruschen as a help against further attacks. Try Kruschen for the relief of rheumatic pains and lumbago. 25c and 75c at your nearest drug store.

## Life Span Of Fish

Cannot Be Told Accurately But Records Give Some Indication

How long do fish live, if left alone? It is not easy to take accurate account of fish, because they live under the water, but some records which are useful, at least as an indication.

The New York Aquarium has a record of striped bass living for twenty years, large-mouthed bass living for eleven years, and whitefish which reached fifteen years.

London Zoological Gardens had a lungfish which reached nineteen years, and there are unverified accounts of European trout which lived for fifty-three years in captivity.

Eels in aquariums have lived for fifty-five years. Studies of salmon show that the rate of growth and age of a fish may be judged from the scales.

## Creates New Art

Woman In Australia Uses Colored Wools To Make Beautiful Pictures

Twelve years ago Miss E. M. Richardson, an Englishwoman living in Australia, became interested in making pictures, not with oils or water colors, but with wools.

Today she has developed a new art; her pictures, painted with Australian wools, are full of life and color and have fine perspective. She has done pictures of such personalities as John Masefield, Edward Greig, Jean Sibelius and Thomas Edison.

Black and white portraits such as she does have never been done before, and few people have attempted landscapes in colored wools. She says that she cannot paint and has no other interest in art, yet her Australian scenes and misty-green English landscapes appear at a distance to be done in oils.

## Indian Harvest Time

Meat Season For Hunting And Festivities Would Soon Start

Autumn was the time at which the Indian warriors returned from raiding enemy camps and the traders from traffic with their allies. The women of the tribe by now were busily engaged in harvesting the maize and storing it away.

One interesting Mohawk family group in the Ontario gallery of the Royal Ontario Museum shows the members hard at work, the men making bows and sap tongs, the women pounding mal, to four and weaving the mats. All looked forward to the time when the fall tasks were completed, and the rest of the year could be devoted to hunting, fishing and festivities.

The Babylonians had a numerical system based on 60 instead of 10.

**3.00****J. C. McFARLAND CO.****IRMA****TIME EXTENDED TO FILE FORMS**

The National Barley Contest Committee on October 25 decided to extend the time within which farmers may file their applications for judging their barley.

Each contestant has already received an application for grain judging. The form is in triplicate. The top half is to be used by contestants who ship the grain. The bottom half is to be used for con-

testants holding their barley on the farm for seed.

If a contestant is shipping his carload of barley, the time within which applications for judging must be completed and mailed has been extended to December 15. The old date was Nov. 30.

If the grain is being held on the farm for seed the time within which the application form must be mailed has been extended to Nov. 30. The old date was Nov. 15.

If any contestant has not received an application form, please notify the contest committee immediately and the form will be forwarded.

Please note the new dates, Nov. 30 and Dec. 15. Send the completed forms to the Chairman of the National Barley Contest Committee, 206 Grain Exchange, Winn., Manitoba.

**NEED OF BREAKFAST**

Tests in industrial establishments have shown that the worker who "skipped" on his breakfast, did less work than the hearty eater, in his first hour, and that his efficiency declined with the advancing hours. Industrial health officers of the Dept. of National Health and Welfare stress the need of a good breakfast, which they point out should provide from one quarter to one third of the day's nutritional requirement.

**VITAMIN C**

Lack of Vitamin C in the diet affects the whole body, for, say health experts in the Dept. of National Health and Welfare, Ottawa, this Vitamin is required to help hold body cells together, just as mortar is needed to keep the bricks of a house together. For proper intake of Vitamin C, nutrition authorities recommend vegetables, at this time of the year, as the best and most inexpensive source.

Alice and Dora,  
Mary and John.

**SOUND SLEEP**

One's outlook and quality of work depend largely upon the amount of sleep enjoyed, says the Dept. of National Health and Welfare, in a short health bulletin, "When Retiring," the Dept. reminds parents, "be sure that the air in rooms in which people have been smoking is cleared, so that children as well as adults may enjoy healthful sleep." The health authorities point out that nervousness, loss of weight and lack of reserve power, are among the results of too little real deep rest.
